DEPARTMENT OF PHYSICS

**Name of the Programme : Student Development Programme on Careers in Space Science:
Pathways to Jobs and Research Opportunities**

Date : 23.08.2025
Venue : P.G. Physics Lab
Time : 2.00 PM

Objective of the Programme :

- To create awareness among students about career opportunities in space science and astrophysics.
- To provide insights into research pathways, international fellowships, and higher education opportunities in space-related fields.
- To motivate students by sharing real-world research experiences and emerging opportunities in global space research centres.

Programme :

The session was facilitated by Mr. Jawahar Raja, Astro Physicist & Doctoral Researcher, ESA Space Research Centre, Polish Academy of Science, Poland. He delivered an inspiring lecture on the theme "Careers in Space Science: Pathways to Jobs and Research Opportunities." The resource person discussed in detail the scope of space science, research opportunities abroad, skill requirements, and pathways to achieve a career in space research. Students interacted actively and clarified their queries about research, higher studies, and international collaborations.

No. of Participants : 4 Faculty Members & 17 Students

Outcome of the Programme :

Participants gained knowledge on the various domains of space science and their career potential. They became aware of the skills needed to pursue higher education and research opportunities at national and international levels. The session also motivated the students to take part in global space research programmes and encouraged them to set ambitious goals in the field of astrophysics and satellite research.
