## **To conclude**

In the words of Jean Piaget the goal of education is not to increase the amount of knowledge but to create the possibilities for a child to invent and discover and to create men who are capable of doing new things.

Our Founder correspondent, late. Thiru.P.R.Narajan's ayyas mission was empowerment of rural girl students. His dream was to make every student success and no one a failure. I thank all the stake holders, the management, the college committee members, dedicated faculty members, the non-teaching staff, PKR family members, beloved students and parents for the successful completion of this academic year. I must also thank well-wishers, the media persons and all those who worked and contributed to the success.

My best wishes to the outgoing UG and PG students for their prosperous life ahead. I thank the Almighty for showering his blessing on one gathered here.

Time constraint prevents me from monitoring the numerous other achievements of the college. They however find a place in the detailed college report. I would like conclude by once again extending my gratitude to the dignitaries' present here. All those associated with P.K.R who have believed in our vision of progress and perfection. Thank you!!
